

SEO GROWTH PROPOSAL

SEO & Local Search Strategy

Prepared for Vibes Mortgage & Finance

Ingleburn and South-West Sydney search visibility

Presented by WPPRO · August 2026

Proposal Overview

A concise SEO-only plan to improve local visibility, capture high-intent searches and turn more website visits into enquiries.

01 **Executive Summary**

03 **Local Search Opportunity**

05 **SEO & Conversion Strategy**

02 **Current Search Position**

04 **Keyword & Competitor Strategy**

06 **Investment**

A credible mortgage offering, but local search is under-developed

Vibes Mortgage & Finance already has the essentials to compete online: access to 60+ lenders, multiple lending services, an Ingleburn office and clear appointment pathways. The opportunity is to connect those strengths to the local, service-led searches used by borrowers across South-West Sydney.

Ingleburn postcode and local base

* Public website review completed August 2026.

The challenge, opportunity & plan

The Challenge

- Search presentation is largely brand-led rather than location + service-led.
- High-value borrower journeys are not prominent in the site structure.
- Testimonials currently fail to load and the blog shows no posts.

The Opportunity

- High-intent searches exist for home loans, refinancing and mortgage brokers in the local market.
- Vibes has broad lender access and service coverage to support multiple search entry points.
- Booking and contact pathways already provide a workable conversion base.

The Strategy

- Fix technical and on-page foundations first.
- Build genuine local relevance around Ingleburn and South-West Sydney.
- Develop useful borrower pages and strengthen proof around priority services.

Priority SEO findings

Homepage metadata

The public title is “Vibes Mortgage and Finance” and the description is generic, without a priority service or location.

Search architecture

The service range is broad, but priority borrower journeys such as first-home buyers are not prominent as dedicated entry points.

Local relevance

The website lists an Ingleburn office, while key homepage messaging does not strongly target Ingleburn or South-West Sydney search intent.

Proof content

The testimonials page currently returns a failed-load message and the site shows no published blog posts.

Content depth

Service pages explain the offer, but stronger local intent, FAQs, internal links and conversion-focused copy are needed.

Conversion assets

Appointment booking, phone details and contact forms are already present and can be strengthened rather than rebuilt.

What's already working

60+ lender proposition

A strong, visible choice message that can support comparison-focused borrower content.

Service breadth

Home loans, refinance, investment, personal, business and asset finance create several relevant SEO pathways.

Lead capture

The website includes appointment booking, phone details and contact forms.

Local & compliance base

An Ingleburn address and broker licensing disclosure provide foundations for trust and local relevance.

Bottom line: Vibes does not need a full website rebuild to start. The priority is clearer search signals, stronger local/service pages and measurable enquiry paths.

Ingleburn is the right local search anchor

The website lists a genuine Ingleburn office. SEO should establish that proof point first, then expand into service areas that the team can genuinely support across South-West Sydney.

Important setup task

Standardise the business name, phone, address and service-area information across the website, Google Business Profile and major citations. Local SEO will be stronger once the core business data and target radius are confirmed.

PROPOSED LOCAL STRUCTURE

1

Primary location

Ingleburn + Google Business Profile

2

Service-area hub

South-West Sydney / Macarthur

3

Priority expansion

Campbelltown, Liverpool, Camden

4

Local proof

Reviews, FAQs, service coverage

Preliminary keyword direction

Strategic themes for the proposal. Final keywords, volumes and priorities should be validated in Keyword Planner and Search Console during onboarding.

CORE LOCAL

mortgage broker Ingleburn

mortgage broker South-West Sydney

mortgage broker Macarthur

HOME PURCHASE

home loan broker Ingleburn

first home buyer broker Sydney

home loan pre-approval broker

REFINANCE

refinance broker Ingleburn

home loan health check Sydney

debt consolidation refinance broker

INVESTMENT & BUSINESS

investment loan broker Sydney

business loan broker Macarthur

asset finance broker Liverpool

The local search field is competitive - but clear

Representative Sydney mortgage-broker competitors use local pages, strong proof and borrower-specific content. These examples indicate the presentation gap Vibes needs to close; they are not claims about fixed rankings.

Finance in Sydney

BROAD SYDNEY POSITIONING

Established experience messaging and a clear home-loan-specialist story.

LOCAL RELEVANCE = ADVANTAGE

AFMS Group

TRUST & AUTHORITY

Strong lender, credential, team and review proof throughout the site.

LOCAL RELEVANCE = ADVANTAGE

Tim Perry Finance

PERSONAL BRAND

Simple conversion path, strong reviews and borrower-friendly positioning.

LOCAL RELEVANCE = ADVANTAGE

SKF Finance

SERVICE BREADTH

Boutique positioning across home, commercial and asset-finance needs.

LOCAL RELEVANCE = ADVANTAGE

Representative public search and website observations, August 2026. Exact results vary by user, device and location.

SEO & Local Search Management

Technical cleanup

- Indexation, sitemap and robots review
- Canonical and redirect checks
- URL and permalink cleanup
- Schema and internal-link improvements

On-page SEO

- Titles and meta descriptions
- Unique H1/H2 structure
- Keyword-aligned copy updates
- Priority service-page optimisation

Local SEO

- Google Business Profile optimisation
- NAP and citation consistency
- Ingleburn/service-area strategy
- Review and trust-signal improvements

Content growth

- First-home-buyer and refinance pages
- Local service page development
- FAQ and proof expansion
- Conversion-focused CTAs

SEO & Local Search package

Ongoing SEO management focused on stronger organic visibility, local relevance and qualified website enquiries.
